PLA and PET Product Catalogue

# Who We Are

# Company Profile

**Shanghai SUNSION** is a pioneer and leading global manufacturer of eco-friendly packaging for food service. We have more than 20 years' history in this field. We specialize in the design, manufacture and distribution of compostable packaging solutions. The main material we are using is PLA, and second one is PET . Main products are tasting cup, ice cream cup, cold drinking cup, deli container, salad bowl, flat lid and dome lids. Size varies from 0.9oz to 32oz .

**PLA Cup**

I am Compostable

**PET Cup**

I am Recyclable

## Your One Stop Supplier for

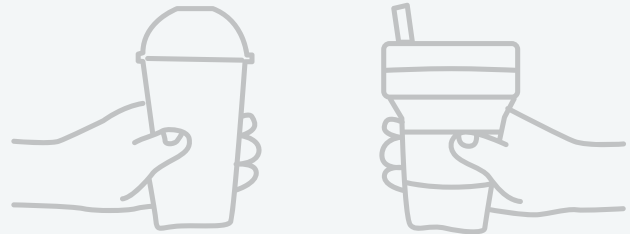

**ECO-FRIENDLY**

**CUSTOMIZED  
BRANDED**

## Food Packaging Products

### Product Capacity

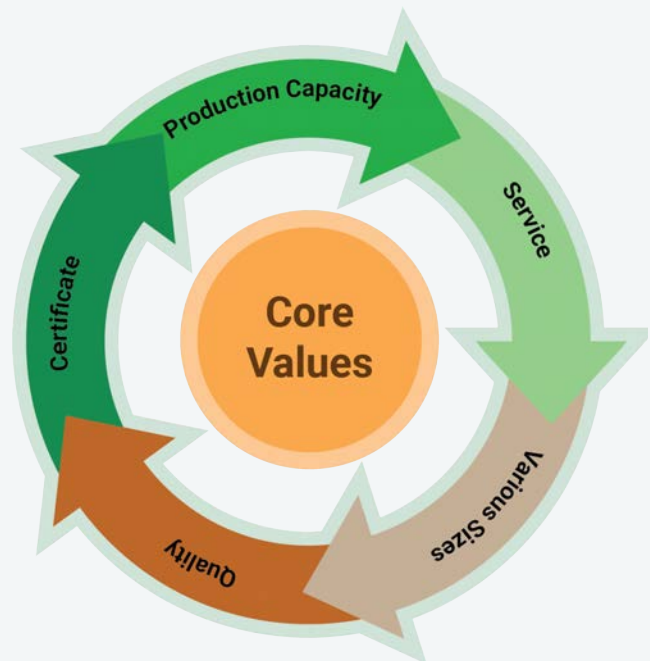

We have 3 sets of Sheet Extruders, 10 sets of high-power cup making machines, 3 sets of 6 color printing machine, 6 sets of lid making machines, 4 sets of cup mouth rolling machines and 2 station Blister machines. With these facilities 60,000,000 cups and lids can be produced every month.

### Service

We know that time is money. Everyone on our team is extensively involved to provide our customers with accurate and timely service. Our service highlight

- \* High quality food grade packaging
- \* Customized graphic design for branded packaging
- \* Innovative solution to meet your needs.
- \* Expedited delivery offered at additional cost

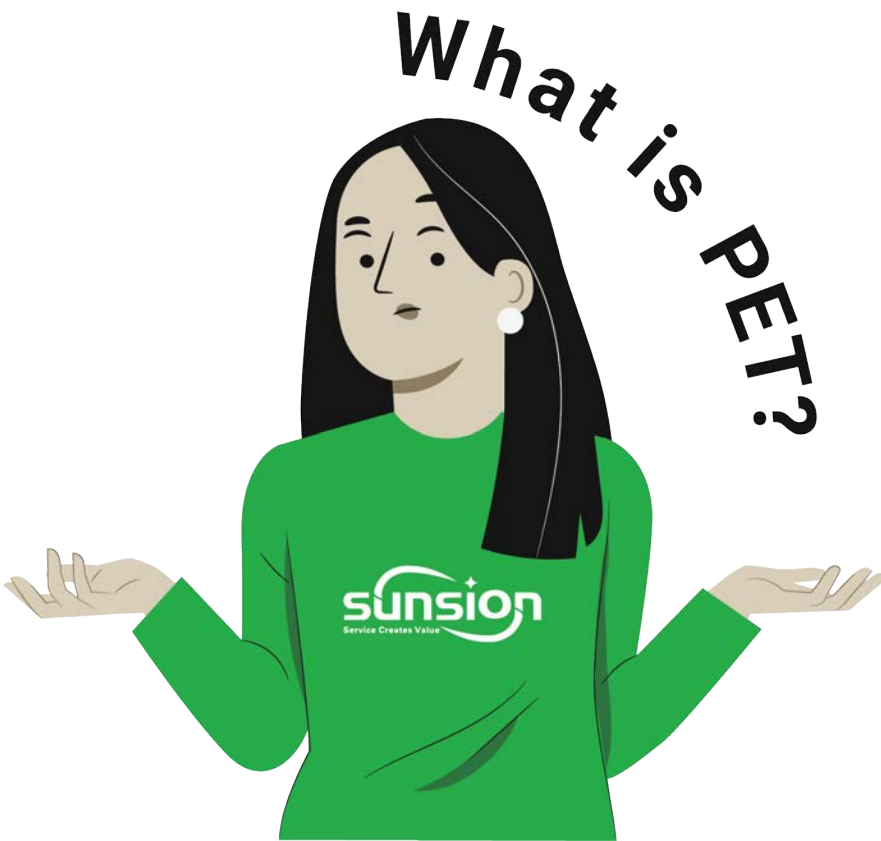

### Various Sizes

- \* We have more than 200 sets of existing molds, which can provide various options for customer.
- \* New molds can be made if a customized size is required

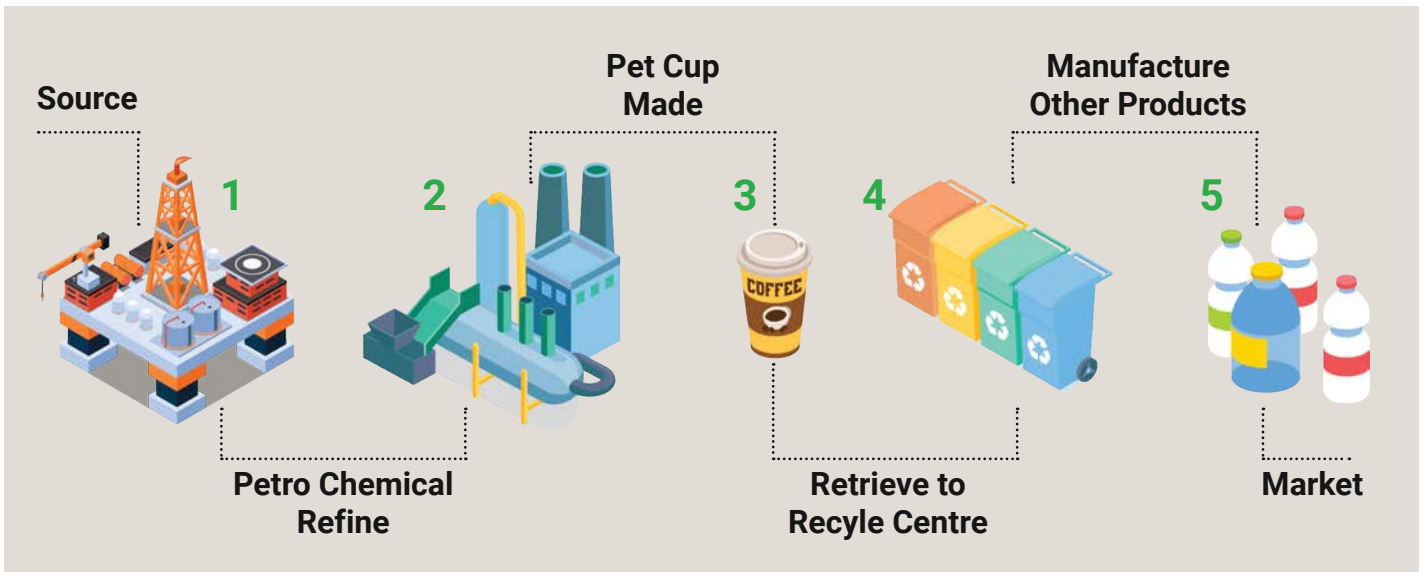

### Packing

- \* Heat insulation film is available for all PLA cups.
- \* Customized and Branded Carton printing is available.

**PET**, (full name Polyethylene Terephthalate) is extracted from oil. It is also regarded as one of the most eco-friendly products because of its non-toxic and odorless properties. Recycling is the best way of quantitatively controlling plastic pollution. This is not only good for the environment, but it can also save resources.

The picture below will help you understand PET better.

**Tips:**

**Temperature range:** PET products can withstand a temperature range of -20°C to 70 °C. It is only used for cold drinking cups

**Transportation & Storage:** During transportation or Storage, PET does not need require any insulated film .

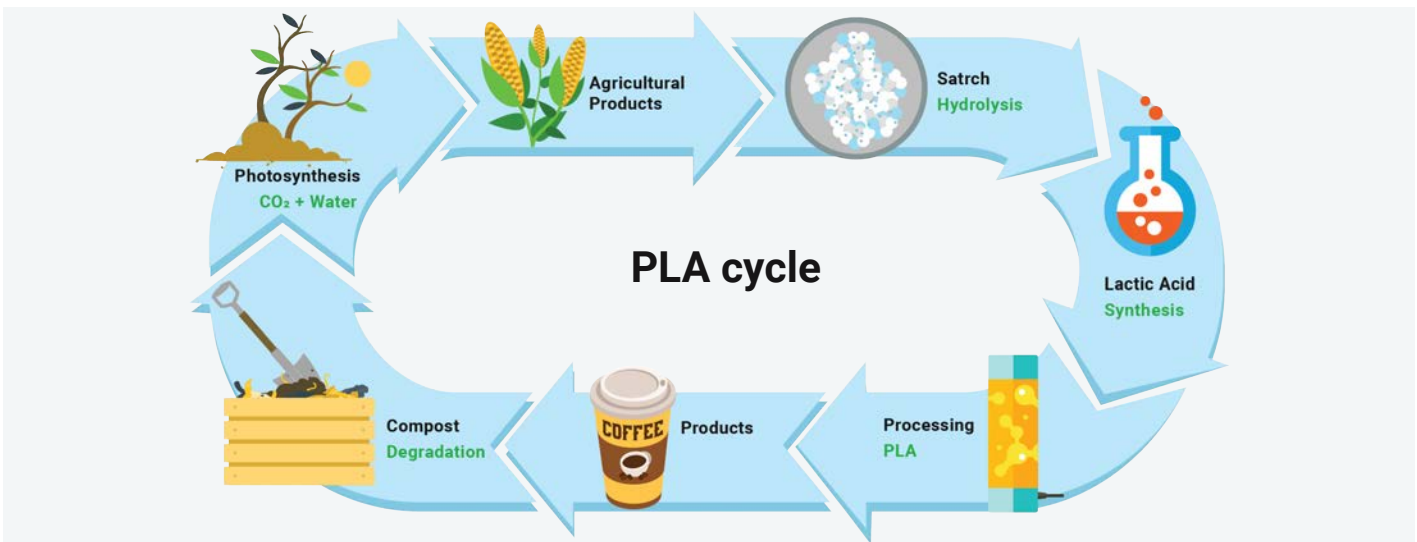

**Recycle :** PET is recyclable and can be disposed of in the appropriate bins., please sort out the garbage after using up the PET products and throw them into the designated garbage bin. **Whether or not PET product is environmentally friendly depends entirely on how we dispose of it.**

**PLA** (also known as Polylactic acid) is a compostable bioplastic made from plant based resources. Put simply: it's a plant based bioplastic that can be recycled through the industrial composting process. This makes it an ideal material to use when packaging is mixed with food waste.

### Top 5 Reason to use PLA

1. PLA is made from renewable resources
2. PLA has a lower carbon footprint
3. PLA is a compostable alternative to many products
4. Less energy is required to create PLA. PLA requires 65% less energy compared to conventional plastics.
5. PLA aligns with the circular economy

The picture below will help you understand PLA better.

### Tips:

**Temperature range:** PLA products can withstand a temperature range of -20 ° C to 55 ° C . It can only be used for cold drinking.

**Degradation conditions :** Under industrial composting environment, PLA products are completely degraded into water and carbon dioxide after 3-6 months.

**Transportation & Storage:** Considering that the shipping time is long, especially in summer, the temperature inside the container will be very high. In general, we recommend that customers install a insulation film in the container or an insulation bag in the carton.

**Storage :** PLA products can be stored at room temperature for many years .

# PLA Beverage Cup

All the PLA cups below can be made in PET material & Customizable

Capacity	5oz/150ml
Top/Bottom	74mm/45mm
Height	69mm
Matching Lids	74mm Flat/Dome lid

6. Withstand temperature from -20 degree to +55 degree

## About PLA Bags

### Choose The Green Alternative

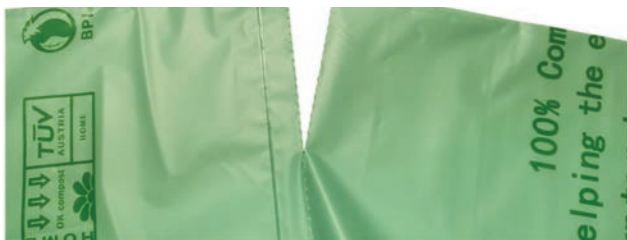

Made from plant-based plastic derived from cornstarch, these grocery bags are the green alternative to conventional t-shirt bags. Keep the earth in mind when packaging purchases at your store or lining small trash cans at home.

### Strong & Sturdy Handles

Made with strong handles, these t-shirt bags provide you with a secure way to carry items from your home to your car. The dual handles can be conveniently tied together to prevent items from falling out.

### Tear-Resistant & Durable

These shopping bags are naturally durable, making them ideal for carrying groceries, meals, and other heavy items. Conveniently tear-resistant to prevent messy accidents when transporting items to family gatherings or customers' homes.

## Customized Service

**Branded  
Customized**

Sustainable product packaging helps to round out an eco friendly backstory for your brand, and demonstrates authenticity to dedicated eco-friendly customers. But finding the right high quality green packaging solution for your business can be difficult. We are here to help!

### **Printing**

We can print customers' logo, company name, branding and more on the cups in up to six colors. Customers only need to provide us the print-ready e-files or may contact us for design services. Then we are able to provide an e-file of your mock-up.

### **Mold**

Any cup mold can be made in our factory. We can engrave customers' logo ,company name.or brand at the bottom of the cup or on the lid.

### **Mixing Loading**

PLA and PET can be mixed in the same shipping container.

### **Biodegradable**

Cups and lids can be packed in PLA bags. Not only are our products biodegradable, but the packaging material can also be 100% biodegradable.

# Certificates

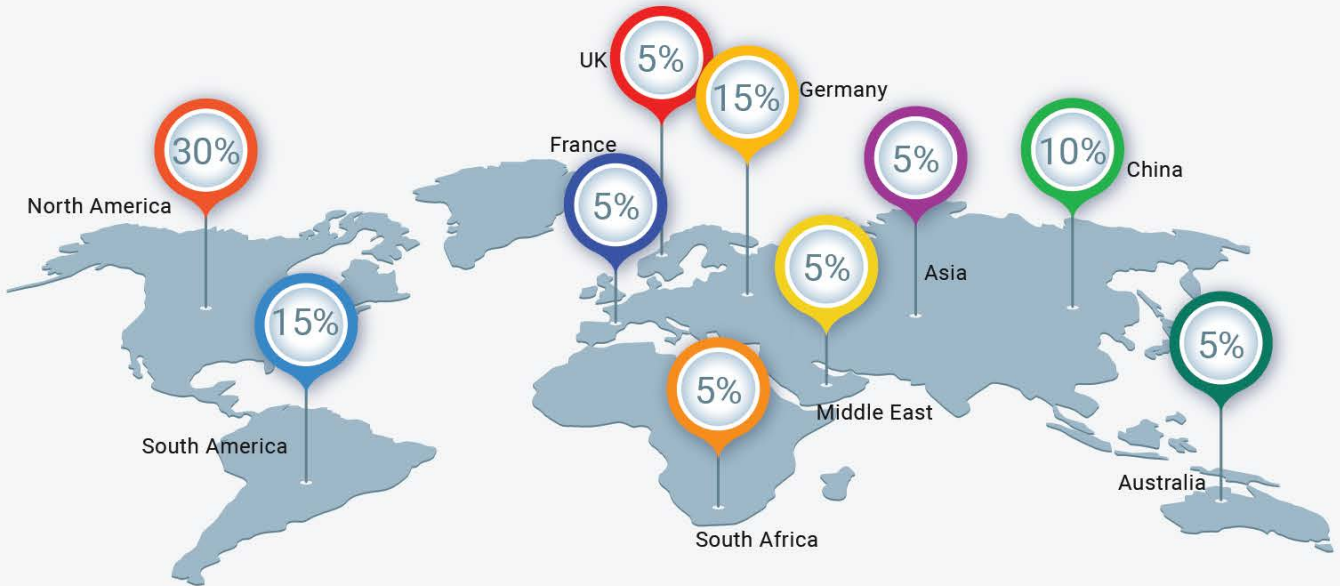

# Thank You

*We were born as an alternative to the use of traditional plastics, and now with your help we're thriving on becoming Sustainable-Compostable Heavyweight World Champions. Thank you for considering Shanghai Sunsion Eco-friendly products in your life.*
